

KRASHKARMA

KRASHKARMA can easily be described as metal's most accomplished duo. Alongside an impressive track record which includes over 3 million views on their YouTube channel, 114,000 followers on Facebook and more than 700 shows across the globe.

Looking behind the facts and figures, the Los Angeles based band are almost certainly the only metal duo with a female drummer and vocalist, and a single guitarist/bassist. From behind the drum kit the energetic Niki Skistimas keeps the rhythm rock-tight as she delivers her seductively-charged vocals; meanwhile, guitarist/bassist and co-vocalist Ralf Dietel brings the material to life with his unique Frankenstein guitar/bass creation. Never before have two people created a sound so immense yet so vibrant.

Press Quotes:
